Clarity of drug importation project

Have a contractor in India.

Project
Expanding. Trying to get
generic equivalent to aerosol
flu.

Now -

Need some structure around next
steps to give direction to India
connection.

Domestic
Needs to be reversed engineered.

But needs financial commitment to
do so.

Issue! Standards + Quality Control

Issues - Money | Quality Control |

Testing - we'll do.

One option: Hire a pharmacist.

Simply manufactured, cheap Janagline product.

Issue: Illegal.

Per - Send them over as vet, supplies + store them.

DV - Leave them here until needed.

Vajaya - needs to be there for the father
- could manage process there.

Need 1,400,000 pills

Contract w/ bio chemist here -
to outline what needs to be done

Need to establish an account
in India to pay for this.

Issues - Import / Export
They've hired them already
know some of this.

\$40,000 in bank acct,
Need to work out draw down.
